

1 Introduction

Sorting was analysed exhaustively by Knuth [1] and later surveyed by Sedgewick [2]. Hash tables follow Cormen [3].¹ See Figure 1, Equation 1 and Section 2. Project page: <https://example.org/theorem>.

$$e^{i\pi} + 1 = 0 \quad (1)$$

Figure 1: A black box figure.

2 Method

The method section body text sits here.

¹Footnote target text about hashing.
